- English (Experience)

PROFILE

Experienced Web Developer with 3 years of success creating and maintaining high-quality websites. Skilled in HTML, CSS, JavaScript, PHP and Laravel.

WORK EXPERIENCE

• PCI Innovations Tech Center, Inc.

Junior Web Developer

March 2024 - Sept 2024

- Website Development: Assist in the development of websites and web applications using HTML, CSS, JavaScript, and various web frameworks.
- Frontend Development: Create and style user interfaces, ensuring responsiveness and a seamless user experience across devices.
- Backend Development: Work with backend technologies (such as PHP, Node.js, or Python) to build and maintain server-side applications and integrate databases.
- Debugging and Troubleshooting: Identify and fix bugs or issues in web applications, often working with more senior developers to learn debugging techniques.
- Version Control: Use version control systems like Git to manage codebase changes and collaborate with team members.
- Testing: Conduct basic testing of websites and applications to ensure they function correctly and meet quality standards. 2025 - 2029
- Documentation: Write and maintain documentation for code and development processes to ensure clarity and consistency.
- Learning and Development: Continuously learn new technologies, tools, and best practices in web development.

• HRD Singapore Pte. Ltd.

Full Stack Web Developer

Oct 2021 - March 2024

- Website and software application designing, building, or maintaining.
- Using scripting or authoring languages, management tools, content creation tools, applications, and digital media.
- Conferring with teams to resolve conflicts, prioritize needs, develop content criteria, or choose solutions.
- Directing or performing Website updates.
- Developing or validating test routines and schedules to ensure that test cases mimic external interfaces and address all browser and device types.
- Editing, writing, or designing Website content, and directing team members who produce content.
- Back up files from Websites to local directories for recovery.
- Determining user needs by analyzing technical requirements.
